

Customer Journey Map

Project: SLA Governance & Accountability in ServiceNow

Stage	Steps	Interactions	Goals & Motivations	Positive Moments	Negative Moments	Areas of Opportunity
Entice	User hears about SLA dashboard	College portal, demo, faculty	Help me manage SLAs efficiently	Easy access to information	Limited awareness	Provide onboarding video
Enter	Login to ServiceNow	SSO login, portal	Help me access securely	Quick authentication	Forgot password	Enable password reset & MFA
Engage	Create incident & assign SLA	Portal, forms, workflows	Help me resolve incidents	Automated SLA assignment	Manual entry mistakes	Smart defaults & validation
Engage	Monitor SLA timers	Dashboard, reports	Help me avoid SLA breach	Real-time countdown	Hard to identify risks	Color-coded SLA status
Engage	Receive alerts	Email, notifications	Help me act before breach	Timely reminders	Notification overload	Priority-based alerts
Exit	Resolve incident	Agent workspace	Help me close ticket correctly	SLA met	Missing closure notes	Mandatory resolution fields
Extend	Review performance	Analytics dashboard	Help me improve service quality	Historical insights	Difficult trend analysis	AI recommendations & KPI trends
Extend	Continuous improvement	Management review	Help me optimize SLAs	Better compliance	Repeated bottlenecks	Periodic SLA optimization

Journey Flow

Entice → Enter → Engage (Incident Creation → SLA Assignment → Monitoring → Notifications) → Exit (Incident Resolution) → Extend (Reporting, Analytics, Continuous Improvement)
