

Project Design Phase
Proposed Solution Template

Date	1 5 july 2026
Team ID	
Project Name	Virtual Agent–Driven SLA Breach Awareness & Justification System
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Organizations often face SLA breaches because users are not informed before deadlines, leading to delayed task completion and reduced service quality.
2.	Idea / Solution description	Develop a ServiceNow-based Virtual Agent that monitors SLA progress, sends timely alerts, collects delay justifications, and escalates critical tasks automatically using Flow Designer.
3.	Novelty / Uniqueness	Unlike traditional reminder systems, the solution provides proactive Virtual Agent interactions, automated justification collection, and intelligent workflow automation within ServiceNow.
4.	Social Impact / Customer Satisfaction	The solution improves response time, reduces SLA violations, increases employee accountability, and enhances customer satisfaction by ensuring faster issue resolution.
5.	Business Model (Revenue Model)	The solution can be offered as a ServiceNow implementation or customization service for organizations, generating revenue through deployment, integration, training, and ongoing maintenance.
6.	Scalability of the Solution	The system can be easily extended to different departments such as HR, Finance, Facilities, and Customer Service, making it suitable for organizations of any size.
